About NITIE

National Institute of Industrial Engineering (NITIE) is a premier academic institute of higher learning established in 1963. NITIE has travelled a long way in its endeavor to reach excellence in various aspects of Industrial Engineering and Management. It has been providing solutions for problems in the areas of Industrial Engineering, Operations Management, Environment management and Information Technology Management, covering the Human-machine interface, enhancing the productivity and contribute towards the organizational development be it private, public, government and society at large. NITIE in its 50th year wishes to give focused attention to manufacturing sector through its knowledge and expertise along with POMS experts in enhancing their manufacturing competitiveness through this Conference.

About POMS

Production and Operations Management Society (POMS) is an international professional organization representing interests of POM professionals from around the world. The purposes of the Society are:

- (i) to extend and integrate knowledge that contributes to the improved understanding and practice of production and operations management;
- (ii) to disseminate information on POM to managers, scientists, educators, students, public and private organizations, national and local governments, and the general public; and;
- (iii) to promote the improvement of POM and its teaching in public and private manufacturing and service organizations throughout the world.

POMS has outstanding POM practitioners who are committed to share practical knowledge and insights with academia and industry, and explore/discuss emerging POM issues in the context of enhancing manufacturing competitiveness. POMS is in its 26th year, and is keen to extend its knowledge network in the Indian Subcontinent.
