

India focus. World view.

Evolved from the need for a world-class business school in Asia, the Indian School of Business (ISB) is an internationally top-ranked, research-driven, independent management institution educating future leaders for India and the world. The ISB is committed to creating leaders through its innovative programmes, outstanding faculty, and thought leadership.

Over the years, the ISB has successfully pioneered several new trends in management education in India, offering key learning interventions across participant groups.
